

**The Families Commission is committed to stimulating and promoting research into matters relating to the interests of families. Quality research is essential to the development and enhancement of family policy and informs effective practice involving family well-being.**

At the seminar we will be presenting the results of recently completed projects and progress reports on studies underway. This is an opportunity for researchers, practitioners, policymakers and other interested groups to come together and discuss issues of significance for families.

### **Invitation from the Chief Commissioner**

Dr Jan Pryor, Chief Commissioner is pleased to invite you to the 2009 annual research seminar to hear the authors of Families Commission research present their work. The seminar will have three themes:

- relationships
- work-life balance and family finances
- making a difference for families

You may attend as many sessions as you wish.

**Please pass on this invitation to people within your networks who may also be interested in attending.**

### **RSVP:**

Penny Dring-Aust
